

### Reproducing the cheerful and bright southern culture of modern Okinawa as viewed by a Mermaid Princess

One of the highlights of Okinawa is its beautiful sea. It attracts divers from all over the world. In this theme, a Mermaid Princess looks over the seaside beach, Okinawa of today from the sea. The venue will be decorated like the sea with floating fish and seashell art works. The stage decorated in a blue sea, blue sky, white beach, and fluffy cloud motif will look down over the audience. Guests will enjoy dance performances and music such as pop and jazz by artists who are based in Okinawa but active around the world. We recommend the gourmet French dinner made with special local ingredients of Okinawa. This party setup is suitable for all main banquet halls of major hotels in Okinawa.
